

# Market Research “ Telemarketing Opt-Out Reports

*selectabase*

## Registration numbers by region and area code

The Telephone Preference Service (TPS) is a central opt out register whereby individuals can register their wish not to receive unsolicited sales and marketing telephone calls. The Corporate Telephone Preference Service (CTPS) is a list of organisations (limited companies, public limited companies and Scottish partnerships) who have registered their wish not to receive unsolicited direct marketing calls. It is a legal requirement that companies do not make such calls to numbers registered on the TPS.

Phone numbers with the standart code 1624, associated with Isle of Man, appear in the following registers:

- 9,864 in the Telephone Preference Service (TPS)
- 944 in the Corporate Telephone Preference Service (CTPS)

There are 17,611,873 numbers registered on TPS, and 1,679,306 numbers registered on CTPS (figures correct as of 16/5/2022).

The Isle of Man , also known as Mann , is an island nation and self-governing British Crown Dependency in the Irish Sea between Great Britain and Ireland. The head of state, Queen Elizabeth II, holds the title Lord of Mann and is represented by a Lieutenant Governor. The United Kingdom is responsible for the isle's military defence.

Humans have lived on the island since before 6500 BC. Gaelic cultural influence began in the 5th century AD, when Irish missionaries following the teaching of St. Patrick began settling the island, and the Manx language, a branch of the Goidelic languages, emerged. In 627, King Edwin of Northumbria conquered the Isle of Man along with most of Mercia. In the 9th century, Norsemen established the thalassocratic Kingdom of the Isles, which included the Isle of Man. Magnus III, King of Norway from 1093 to 1103, reigned as King of Mann and the Isles between 1099 and 1103.

In 1266, King Magnus VI of Norway sold his suzerainty over Mann to King Alexander III of Scotland under the Treaty of Perth. After a period of alternating rule by the Kings of Scotland and England, the island came under the feudal lordship of the English Crown in 1399. The lordship reverted in the British Crown in 1765, but the island did not become part of the 18th-century Kingdom of Great Britain, nor of its successors, the United Kingdom of Great Britain and Ireland and the present-day United Kingdom of Great Britain and Northern Ireland. It has always retained its internal self-government. In 1881, the Isle of Man Parliament, Tynwald, became the first national legislative body in the world to give women the right to vote in a general election, although this excluded married women.

The Mann economy is bolstered by its status as a tax haven and offshore banking destination. Insurance and online gambling each generate 17% of the GNP, followed by information and communications technology and banking with 9% each. The Government of Mann has laid out a strategy entailing a "whole-Island approach" to address the serious problems of money laundering, financial crime, and terrorism financing. Internationally, the Isle of Man is known for the TT Motorcycle Races, and the Manx Cat, a breed with short or no tails. In 2016, UNESCO awarded the Isle of Man biosphere reserve status.
